Public Works Committee
Jim Hitchcock, Chairman
411 Main Street
Catskill, NY 12414

Dear Committee:

The following is a list of departmental activities and projects currently in progress or completed for the month of June 2014.

- 1.) Routes 9W/81/385, intersection improvements, Town of Coxsackie: Contractor addressing final punch list items.
- 2.) CR47 Bridge, over the Kaaterskill Creek, BIN 3-30282-0 PIN 1759.52 (HBP) Town of Catskill: proceeding with closeout of project.
- 3.) Jewett Heights Bridge (CR17) over the Batavia Kill, Town of Ashland, (BIN 3-30321-0, PIN 1759.24) (HBP); Engineers submitted design report to NYS DOT for approval; progressing with ROW.
- 4.) Carr Road Bridge over the Schoharie Creek, Town of Jewett, (BIN 3-20117-0, PIN 1759.23) (HBP); Advertised for construction.
- 5.) Bridge Preservation Project (PIN 1756.47) (HBP); CR27 Town of Durham, CR65 Town of Windham, CR23B Town of Catskill: preliminary design evaluation and study.
- 6.) Black Bridge over the Catskill Creek, (PIN 1759.71) Village of Catskill (TEP): Finalizing scope and cost for design.
- 7.) Bridge Program:
County Bridge Crew:
 - 1.) Miscellaneous bridge and guide rail repairs.
 - 2.) Safety Flag repairs.
 - 3.) Potic Creek Bridge, Town of Coxsackie, contractor completed construction. Open to traffic.
- 8.) FEMA Disaster 4020 Hurricane Irene (August 28, 2011)
 - a. Coordination with FEMA and OEM representatives to finalize projects.
 - b. Compiling and processing paperwork, for closeouts.

DiscoverGreene.com

Public Works Committee
July 10, 2014
Page 2

- 9.) Engineering Division:
 - a. Culvert Management Program
 - b. Highway Permits
 - c. Construction Projects Planning and Supervision
 - d. Capital Projects Administration
 - e. Pavement Management Plan
 - f. FEMA Projects Administration, and projects closeout.

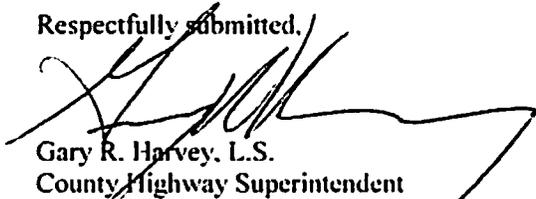

- 10.) Assistance to municipalities and other departments.
 - a. Cutting dangerous trees for the Towns of Hunter and Ashland.
 - b. Moved equipment for the Towns of Prattsville and Windham.
 - c. Assisted Town of Lexington with chip sealing.

- 11.) Road Slide Repairs: (CR6) Town of Lexington:
 - a. CR6 Slide Project: Contractor completing construction.

- 12.) Road Maintenance:
 - a. Sweeping
 - b. Ditching
 - c. Brush and limb clearing.

- 13.) Held annual employee recognition ceremony.

Respectfully submitted,

Gary R. Harvey, L.S.
County Highway Superintendent

Robert J. Van Valkenburg
Deputy Highway Superintendent

Re: PIN 1759.23 – Carr Road over Schoharie Creek
Bridge Replacement (BIN 3201170)
Town of Jewett, Greene County, NY

Subj: Bid Results and Award Recommendation

File: 316.025.001

Dear Mr. Harvey:

This letter provides the County with our recommendation for award for the above referenced project. Upon receipt, review, and concurrence with the enclosed information, the County should prepare and adopt their recommendation of award. The Contract Award Documentation Package, consisting of the County's recommendation and enclosed documentation, must be submitted to the NYSDOT Region 1 for their concurrence.

The following **RECORD OF BIDS** have been tabulated for the Carr Road over Schoharie Creek Bridge Replacement Project. The bids received were announced at the public bid opening on July 1, 2014. The tabulated bid values received from the Contractors is attached; the following is a summary:

CONTRACT NO. 1 – PIN 1759.23, CARR ROAD OVER SCHOHARIE CREEK, BRIDGE REPLACEMENT (BIN 3201170)

<u>Contractor</u>	<u>Total Bid</u>
Tioga Construction Co., Inc.	\$1,818,283.50
HVB Construction, Inc.	\$1,967,000.00
Bast Hatfield Construction, LLC	\$1,998,920.00
James H. Maloy, Inc.	\$2,049,000.00
Arch Bridge Construction Corp.	\$2,127,933.50
Alpine Construction, LLC	\$2,137,546.00
Bette & Cring Construction Group	\$2,178,653.00
New Century Construction, LLC	\$2,182,400.00
Kubricky Construction Corp.	\$2,322,801.00
A. Colarusso & Son, Inc.	\$2,391,017.00
Tetra Tech Construction, Inc.	\$2,460,665.00
Arold Construction Co., Inc.	\$2,684,462.00

The experience to **listen.**
The power to **solve.** 

Mr. Gary Harvey
Greene County Highway Department
July 9, 2014
Page 2

Memorandum of Bids

In reviewing the bids, we found that all bids were compliant with no informalities and all bids were accompanied by 5% bid bonds. The low bid is \$1,818,283.50 by Tioga Construction Co., which is 15% lower than the Engineer's Estimate (see enclosed Memorandum of Bids).

Low Bid Analysis

The low bid has been reviewed and it contains unit price bids for items which are either 25% more than or less than the Engineer's Estimate (see enclosed Low Bid Analysis). The majority of these items have small quantities and total costs less than 1% of the total bid amount. Work items with very small quantities generally have a reduced economy of scale and the unit bid prices for these items can fluctuate when compared to historical bid price data. The prices for these items seem reasonable and are in accordance with the prices contained within the NYSDOT Pay Item Catalog.

The bid prices by Tioga Construction Co. for the following significant items (individual item cost > 1% of total bid amount) were found to be more than 25% greater than the Engineer's Estimate:

1. Item 201.06 – Clearing and Grubbing: In reviewing the bids, the unit price bid for this item is higher than the Engineer's Estimate, however it is consistent with the average bid of all bidders. Based on the comparison with the other bid prices, we conclude that the unit price bid for this item is consistent with the scope of work necessary to complete the item for the project. This item is a lump sum quantity; therefore there will not be an exacerbation of the quantity as there will be no basis for a quantity overrun.
2. Item 203.03 – Embankment-In-Place: In reviewing the bids, the unit price bid for this item is higher than the Engineer's Estimate, however it is only slightly higher than average bid of all bidders. Based on the comparison with the other bid prices, we conclude that the unit price bid for this item is consistent with the scope of work necessary to complete this item for the project. We have reviewed the quantity workups for this item and conclude that the estimated quantity is consistent with the contract drawings.
3. Item 304.12 – Subbase Course, Type 2: In reviewing the bids, the unit price bid for this item is higher than the Engineer's Estimate, and higher than the average bid prices of other bidders. We have reviewed the quantity workups for this item and conclude that the estimated quantity is consistent with the contract drawings. Therefore, we conclude that the unit price bid for this item is consistent with the scope of work necessary to complete this item of the project.
4. Item 551.012053 – Steel H-Piles (HP 12 x 53): In reviewing the bids, the unit price bid for this item is higher than the Engineer's Estimate and the average bid price, however, the low bidder's price for Furnishing Equipment for Driving Piles (Item 551.13) is significantly lower than the Engineer's Estimate and average bid prices. This results in an overall cost for the pile installation that is at or below the total cost in the Engineer's Estimate. Based on the comparison of the total costs for the two Steel H-pile items with the other bid prices, we conclude that the unit price bid for these items are consistent with the scope of work necessary to complete each item for the project. We have reviewed the quantity workups for this item and conclude that the estimate quantities are consistent with the contract drawings.

Mr. Gary Harvey
Greene County Highway Department
July 9, 2014
Page 3

5. Item 619.01 – Basic Work Zone Traffic Control: In reviewing the bids, the unit price bid for this item of work is higher than the Engineer's Estimate, but less than the average bid price. The unit price bid does appear to be consistent with the work identified in the contract documents. This item is a lump sum quantity; therefore there will not be an exacerbation of the quantity as there will be no basis for a quantity overrun.

Some of the items tabulated in the bid contained unit prices which were 25% or more below the Engineer's Estimate. The bid prices by Tioga Construction Co. for the following significant items (individual item cost > 1% of total bid amount) were found to be more than 25% lower than the Engineer's Estimate:

1. Item 202.19 – Removal of Substructures
2. Item 551.13 – Furnishing Equipment for Driving Piles
3. Item 552.22 – Soldier Piles for Soldier Pile and Lagging Wall
4. Item 555.970200CA – Footing Concrete, Class HP
5. Item 568.50 – Steel Bridge Railing (2-Rail)
6. Item 619.601 – Temporary Structures and Approaches No. 1
7. Item 620.05 – Stone Filling (Heavy)
8. Item 620.06 – Dry Rip-Rap

The unit prices for these items are consistent with, or lower than the other bidders, therefore we conclude that the Engineer's Estimate may have been too high for these items. This difference can be attributed to the relative availability of specific materials, materials the Contractor might have stockpiled, current market conditions and trends, and/or the Contractor's experience and familiarity with those items of work.

We have reviewed the quantity workups for all items and determined that the estimated quantities are consistent with the design drawings and the expected magnitude of work for the items. Based on the above justifications, the recommended bid is considered balanced and complete.

DBE/EEO Utilization Requirements

The Contractor has indicated that they will meet the project DBE goal of 10% and female and minority workforce goals of 6.9% and 2.6%, respectively. A complete DBE/EEO package consisting of the following will be provided when it is received from the contractor:

- AAP-19c
- AAPHC 89 for DBE subcontractors
- AAP-10LL
- AAP-35LL

Low Bidder Responsibility

We have completed inquiries with the following agencies regarding Tioga Construction Co. and found no abnormalities:

- General Services Administration
- NYS Department of State

Mr. Gary Harvey
Greene County Highway Department
July 9, 2014
Page 4

- NYS Department of Labor
- Occupational Safety and Health Administration
- NYS Uniform Contracting Questionnaire (is on file with NYSDOT)

Recommendation

Concerning the qualification and experience of Tioga Construction Co., they have completed NYSDOT, NYSTA and Pass-Thru Projects utilizing the NYSDOT Standard Specifications and DBE requirements, including several Pass-Thru that were administered by B&L. We have checked the references provided and we find nothing that would suggest that Tioga Construction Co. is incapable of satisfactorily completing this project. Tioga Construction Co. meets bidder responsibility criteria outlined in Section 14.3.1 of the *Procedures for Locally Administered Federal Aid Projects* and we recommend awarding the construction of the project to Tioga Construction Co.

In accordance with Section 14.4 of the *Procedures for Locally Administered Federal Aid Projects*, the following items are provided for inclusion in the Contract Award Documentation Package. Once the County issues their recommendation of award of the contract, please forward the recommendation along with one (1) copy of the enclosed items, to the NYSDOT Region 1, Attention Karen Hulihan, for their concurrence.

- Proof of Advertising
- Memorandum of Bids (Verification of the Low Bidder)
- Low Bid Analysis
- Copy of signed Proposal for the low bidder including Non-Collusive Bidding and Debarment History Certification
- DBE/EEO Utilization Package (forthcoming)
- Certifications of Low Bidder Responsibility

Please call should you have any questions regarding this.

Very truly yours,

BARTON & LOGUIDICE, D.P.C.

Jeremy M. Bourdeau, P.E.
Managing Engineer

NYS DOT
 Region One
 50 Wolf Road, Suite 1S-50
 Albany, New York 12232

Att: Sam Zhou, P.E., Regional Director

Re : State DOT repair work in Greene County

**Office of the
 County Administrator**

411 Main Street
 Suite 408
 Catskill, New York 12414

**Shaun S. Groden
 County Administrator**

Dear Director Zhou:

On behalf of the Greene County Legislature, I would like to express our thanks for the repair work being done by NYS DOT within Greene County, specifically Route 23, which includes a section in the Town of Windham and a second section in the Town of Catskill. These repairs have been needed for some time now and we appreciate their completion.

I would like to respectfully request your consideration of extending the paving from Cairo Junction Road to Ross Ruland Road, including both of those intersections with Route 23.

The condition of the pavement and the intersections along this section has severely deteriorated, to the point where safety of the general public at these intersections is an issue.

In view of the fact that your crews and machines are already mobilized in the immediate vicinity, and that the paving we are requesting represents only an additional four (4) miles of paving, this supplemental work would be appropriate now, rather than waiting for another construction season. The efficiency of this idea, together with the cost savings, are clearly evident.

Would you kindly let me know if you would be willing to address this situation. Thank you for your consideration of this request.

Sincerely,

Shaun S. Groden,
 County Administrator

SSG/ld

Subject: Rt. 23 Cairo Paving Project

Hi Shaun! Sam Zhou asked me to send you some information on the current Rt. 23 paving project.

Miscellaneous repair work along the full 7 miles of the project limits, Rt. 9 W to Main St., includes ->

- milling and filling: damaged shoulder areas, left turn lanes, and right turn lanes
- sawcutting concrete panels
- pavement repairs at spalled areas, potholes, and joints (longitudinal and traverse)
- new loop detectors installed at 3 intersections

The asphalt overlay work is between Rt. 9W and Cairo Junction Road (about 4 miles).

The remaining approximately 3 miles from Cairo Junction Road to Main St. is the concrete portion that will be left after this year and we are proposing to pave it next year, funding dependent.
