Protection, Planning & Care for Older Adults

Florida Department of Health • FloridaHealth.gov

Article courtesy of

According to the Centers for Disease Control and Prevention, older adults may have a greater chance for serious illness from COVID-19—especially people with weak immune systems or underlying chronic medical conditions like heart, lung, diabetes or kidney disease.

- **Symptoms include:** fever, coughing, and shortness of breath. If you develop symptoms, stay home and call your health care provider. You may be able to recover at home.
- **You need emergency help** if symptoms become more severe, there is chronic chest pain, breathing is difficult or your lips turn bluish.

Protection

Wash your hands often with soap and water for at least 20 seconds. Wash after blowing your nose, coughing or sneezing. Wash after spending time in a public place. Wash before and after touching people you're caring for. If soap and water aren't available, use a hand sanitizer that contains at least 60% alcohol.

Cover your coughs and sneezes. Use a tissue or your sleeve when coughing.

Practice Social Distancing:

- Avoid crowds and large gatherings, especially in venues with poor ventilation.
- Don't shake hands with people.
- Keep at least 6 feet between you and other people.
- Stay away from people who may be sick.
- Try shopping during off-hours—later on weeknights or earlier on weekends—when crowds at stores are lower.
- Avoid touching "high-touch" surfaces: elevator buttons, door handles, handrails, etc.
- Find out if family or friends have been sick in the past two weeks BEFORE they visit. If they have been sick, reschedule at least two weeks out.

Planning

Get a flu shot if you are showing no symptoms of illness.

If you depend on regular medical treatment like dialysis, wound care, etc., talk to your health care provider about special arrangements.

Create a contact list of family, friends, neighbors, health care providers, community assistance programs and drivers. Make sure phone numbers are up-to-date.

Stay in touch with the people on your list and let them know you may need them for help if you become sick.

Have a two–three week supply of the following:

- Non-perishable food
- Medical and health care supplies
- Prescriptions: make sure they are up-to-date

Care

Caregivers, help prevent the spread of COVID-19.

If the person you're caring for lives in a facility:

- Know the facility's outbreak protocol.
- Ask daily about the health of the other residents.
- Monitor visitors. Ask if they've been ill over the past two weeks or if they currently have a fever. A "yes" answer means the visit needs to be postponed for at least two weeks.

If you're caring for someone at home, you'll need to prepare a separate bedroom and bathroom for them. Learn more about this type of at-home care: [CDC.gov/coronavirus/2019-ncov/hcp/guidance-prevent-spread.html](https://www.cdc.gov/coronavirus/2019-ncov/hcp/guidance-prevent-spread.html)

MEDICARE & COVID-19

Medicare covers related needs

- Medicare covers the lab tests for COVID-19. You pay no out-of-pocket costs.
- Medicare covers all medically necessary hospitalizations. This includes if you're diagnosed with COVID-19 and might otherwise have been discharged from the hospital after an inpatient stay, but instead you need to stay in the hospital under quarantine.
- At this time, there's no vaccine for COVID-19. However, if one becomes available, it will be covered by all Medicare Prescription Drug Plans (Part D).
- If you have a Medicare Advantage Plan, you have access to these same benefits. Medicare allows these plans to waive cost-sharing for COVID-19 lab tests. Many plans offer additional tele-health benefits beyond the ones described below. Check with your plan about your coverage and costs.

Tele-health & related services

- Medicare covers “virtual check-ins” so you can connect with your doctor by phone or video, or even an online patient portal, to see whether you need to come in for a visit. If you're concerned about illness and are potentially contagious, this offers you an easy way to remain at home and avoid exposure to others.
- You may be able to communicate with your doctors or certain other practitioners without necessarily going to the doctor's office in person for a full visit. Medicare pays for “virtual check -ins”—brief, virtual services with your established physician or certain practitioners where the communication isn't related to a medical visit within the previous 7 days and doesn't lead to a medical visit within the next 24 hours (or earliest appointment available).
- You need to consent verbally to using virtual check-ins and your doctor must document that consent in your medical record before you use this service. You pay your usual Medicare coinsurance and deductible for these services.
- Medicare also pays for you to communicate with your doctors using online patient portals without going to the doctor's office. Like the virtual check -ins, you must initiate these individual communications.
- If you live in a rural area, you may use communication technology to have full visits with your doctors. The law requires that these visits take place at specified sites of service, known as tele-health originating sites, and get services using a real-time audio and video communication system at the site to communicate with a remotely located doctor or certain other types of practitioners. Medicare pays for many medical visits through this tele-health benefit.

GREENE COUNTY SHERIFF'S OFFICE SENIOR CALL-IN PROGRAM

The Greene County Sheriff's Office has implemented a Senior Call -in Program for our senior citizens that helps ensure their safety and well-being. The program assists seniors daily in making sure they are in good health.

How the Program works

Members of the program are instructed to call **518-731-4273** daily, between the hours of 7:00 a.m. - 10:00 a.m. and advise the officer who receives the call that they are OK.

If a call is not received by a person on the list by 10:15 a.m., Greene County Sheriff's Office will take the following steps to check on that person's welfare:

- *Call that person
- * Call relatives and friends of that person
- * A patrol unit will be dispatched to the residence to check on the well-being of the listed senior.

Other Important Information

Although not required, seniors are encouraged to provide major medical precautionary information which may assist our officers in times of need.

If seniors will not be participating in the program due to unforeseen circumstances, such as a vacation, hospitalization or any other long-term activity, it is important to let the Sheriff's Office know the dates/times to not expect a contact from that senior.

Application forms (below) can be turned into the Greene County Sheriff's Office at 370 Mansion Street, West Coxsackie, NY 12192.

New York State Attorney General Letitia James says her office has gotten reports of people knocking on doors claiming to be from the Centers for Disease Control and offering tests for the coronavirus for a fee.

The Attorney General says the reports have been coming from residents in Otsego County. She says residents should know that **NO ONE FROM THE CDC OR ANY OTHER PUBLIC HEALTH AGENCY IS KNOCKING ON DOORS TO PROVIDE COVID-19 TESTS FOR A FEE OR OTHERWISE.**

James earlier had sent several cease-and-desist letters to individuals and companies trying to market products claiming to be cures while there are no such FDA-approved products.

The Attorney General also has put several businesses on notice in New York that have been charging excessive prices for hand sanitizers, disinfectant sprays, rubbing alcohol and other items being sought during the crisis. Any price-gouging situations should be reported to the Attorney General's office.

NUTRITION NOTES

APRIL IS “STRESS AWARENESS MONTH”

Can you think of one person who at some point in time hasn't experienced stress whether it is work related, concerns family, money or even one's own health? Stress is real and how we manage it affects our quality of life and our bodies.

Stress is defined as a mental, emotional or physical tension or strain which in an escalated fashion can impact health in a negative manner.

Some helpful tips:

- Pinpoint the stressor - keep a journal and become more aware of what set the stress in motion.
- Know your limits - learn to say no; don't take on more than you can handle.
- Alter stressful situations - if you can't avoid the situation, change it and deal with it head-on.
- Try changing the reaction - adapt to the situation and try a more positive approach.
- Increase your resistance to stress - get moving, exercise, walk. Expend that energy and frustration.
- Nurture yourself for improved health - eat health, sleep well.
- Strive for a Stress Free Zone.
- Taking time for you also means taking the time to eat right and incorporate some of those brain foods into your meal plan. Good brain health helps you to manage stress.
- Choose foods that are high in protein, B vitamins, antioxidants and omega-3 fatty acids, which include nuts, avocados, salmon, broccoli, blueberries, and small amounts of dark chocolate.
- Some other things you can do to relieve stress include:
 - * Engaging with others in some exercise or maybe yoga.
 - * Laughing or just simply sitting quietly for a few moments which can help relieve stress and preserve your ability to remember and learn.

Only you can make these changes! We all have some sort of stress in our lives, don't be afraid to share. And remember your dietitian is always available to help.

Money Smart Week® Kids Read 2020

Tuesday, April 14
10:30 - 11:30 am

Cairo Public Library
15 Railroad Ave, Cairo

Families with children aged four to eight are invited to attend a special story time program featuring the Berenstain Bears' Trouble with Money book. Trouble with Money is part of the Money as You Grow Book Club, a research-based program designed to help parents, caregivers, and others teach children ages 4 through 10 money skills through reading, activities, and play. This year's Money Smart Week® Kids Read book was selected by the American Library Association.

Theresa Mayhew, Resource Educator with Cornell Cooperative Extension of Columbia and Greene Counties, will read the story and ask questions along the way that will help keep children engaged in the process. Following the story, child and their parent or caregiver will take part in a fun money-based activity. Each child and/or family attending will leave with a softcover copy of the book thanks to the generous support of the National Bank of Coxsackie. Trouble with Money parent reading guides from the Consumer Financial Protection Bureau will also be available.

To learn more and to pre-register, contact the Cairo Public Library at 518-622-9864 by Monday, April 13.

Created by the Federal Reserve Bank of Chicago in 2002, Money Smart Week® is a public education campaign designed to help consumers better manage their personal finances. This is achieved through the coordinated effort of thousands of organizations across the country. For more information about events or becoming a partner, visit <https://www.moneysmartweek.org/>.
