# The NYS Early Intervention Program Needs **YOU!**

The NYS Early Intervention Program serves infants and toddlers with developmental disabilities and delays from birth to age three and their families in their own homes and communities statewide.

## Why our current providers work for NYS Early Intervention (EI):

I consider it an honor to empower EI families to become their child's best role model and advocate."

– From a Speech-Language Pathologist.

It is amazing to be a part of our children and families' journey while helping pave the way for a successful future!"

– From an Occupational Therapist.

Working with EI children and their families answers our desire to help change the path of a human being immediately, while representing 'what can be' to the families who are desperate for your help and guidance."

– From an EI Administrator.

## If you choose to work in NYS Early Intervention, you can:
