**RE: NOTICE OF CONSTRUCTION STARTING NOVEMBER 13, 2024 – RIVER ROAD, COXSACKIE, NY**

Dear Resident:

The Champlain Hudson Power Express (CHPE) is a 339-mile underground and underwater high voltage direct current (HVDC) electric transmission line that will import up to 1,250 MW of renewable power from Canada as part of New York State's plan to meet its renewable energy goals to benefit all New Yorkers. CHPE is actively constructing this project in upstate New York and currently working in your area.

This letter is to inform you that the construction of this project in West Coxsackie will require a partial lane closure of River Road starting on November 13th, at a point just south of the trailhead to the Coxsackie Creek Grassland Preserve. One lane will remain open during construction with limited ten-minute lane closures between the hours of 10:00 AM and 2:00 PM. CHPE understands that this partial lane closure will impact your daily routine and we are working hard to minimize the impact. Currently, the partial lane closure is expected to last approximately 3 weeks and an alternate detour around River Road will be suggested starting November 13, 2024.

CHPE is working with local elected officials, the Greene County Highway Department, the school district, and emergency response personnel regarding access and continued services of River Road during construction. We realize the inconvenience to the residents in this area and are committed to working diligently to complete our work as quickly as possible while ensuring a safe environment for our contractors and the public.

If you have any questions or concerns before and during the River Road construction, you may reach out to our Land Agents Mike Moschella at (330) 439-8340 or Chris Schilling at (607) 738-5764. You may also reach out to us at (800) 991-CHPE (2473) or via email at [publicoutreach@chpexpress.com](mailto:publicoutreach@chpexpress.com). We value your cooperation.

Sincerely,

CHPE LLC
